PROFESSIONAL SUMMARY

A client-facing professional with 8 years of experience driving revenue growth, expansion, and retention within B2B accounts - backed by a strong foundation in Sales and Business Development. Owned relationships across the full customer lifecycle, from onboarding and technical implementation to renewal and long-term account growth, including developing markets from scratch at two companies and managing client attraction and retention through tailored GTM strategies. Conducted onboarding as well as cross-selling and upselling activities together with Product and Marketing teams, ensuring cross-functional collaboration. Managed a partnership pipeline of 30+ accounts simultaneously, liaising with both internal and external stakeholders. Comfortable in both startup and large-company environments.

PROFESSIONAL EXPERIENCE

GD Media, Amsterdam, NL (Performance Marketing) (on-site) *Dec 2025 – Jun 2026*

Business Development Manager

- Directed daily resource allocation across a team of 6 media buyers, using performance data (ROI, conversion) to prioritize geographies, verticals, and traffic allocation in real time.
- Built a structured playbook to track landing page and offer tests, eliminating duplicated work and giving full visibility into what was tested, what worked, and what didn't across the team.
- Onboarded 3 new advertiser partners from contract signature to campaign launch, expanding testing capacity.
- Monitored advertiser account performance daily across geographies and products, using data-backed negotiation to expand partner compensation 2x within two months.
- Built an internal enablement playbook (budget thresholds, stop-loss criteria) for new team members, reducing ramp-up time and preventing wasted spend.
- Implemented Microsoft Clarity to analyze user behavior on landing pages — identifying drop-off points, engagement patterns, and friction — and directly applied this data to page optimization, increasing revenue by 15% on those pages.

Betatransfer (Fintech, Payments), Remote *Jun 2025 – Nov 2025*

Sales Manager

- Built and maintained a pipeline of 30+ prospective clients sourced from industry events, driving consistent relationship-based outreach to convert them into signed partnerships.
- Converted 5 prospective clients into signed partners by rebuilding and strengthening relationships over time, then personally guided their onboarding and technical integration onto the platform.
- Deepened relationships with 4 key accounts through direct negotiation and cross-selling — expanding some into new markets and others into higher transaction volumes, including one account reaching a 4x increase.
- Represented the company at 5 industry expos — maintaining and strengthening existing partner relationships, gathering client feedback to identify cross-sell and upsell opportunities, and building relationships with new prospects.

- Retained the company's largest client, who was at risk of churn, by negotiating revised terms in collaboration with the Head of Sales and Commercial Director — successfully maintaining current transaction volume for two additional months.

Weltrade (Fintech/Trading), Remote *Sep 2024 – May 2025*

Country Manager

- Joined as Country Manager for a new regional market, building it from zero deposits to 4th place company-wide within 3 months — exceeding KPI targets by 2x.
- Mentored a direct report new to the industry over 4 months — training him on prospecting, needs discovery, and sales fundamentals, contributing to a 20% increase in partner-onboarding KPIs.
- Independently organized 5+ regional events end-to-end, including vendor coordination, increasing brand visibility and driving new client inflow.
- Negotiated and secured a strategic contract structure where the partner brought in new end-users — driving user growth while retaining the partner long-term.

Deriv (Fintech/Trading), Minsk, Belarus (on-site) *Jan 2023 – Aug 2024*

Senior Business Development Manager

- Grew a new market from 42nd to 5th position company-wide, building it almost from scratch through long-term client relationships.
- Sourced and qualified 15 institutional client leads for the company's B2B division.
- Built brand visibility and strengthened client relationships through 10 seminars reaching 750 attendees — using events to retain existing clients and expand engagement with new ones.
- Pitched and secured approval for the company's first merged regional business trip — cutting flight costs by 35% and compressing the market-development timeline by 20% compared to running the trips separately.
- Independently organized the company's first offline trading tournament, coordinating across multiple departments to execute an event with no prior internal precedent.
- Represented the company at iFX Expo Cyprus (2024).

BASF (Chemicals), Minsk, Belarus (on-site) *Dec 2019 – Jan 2023*

Customer Support Specialist

- Built an automated contract-generation system linking Excel and Word, enabling one-click updates of entity names, signatories, banking details, and product data across 100 recurring annual contracts — cutting preparation time 8x.
- Managed shipment coordination and documentation (delivery notes, invoicing) for 10-12 clients throughout the year, supporting delivery of 1,000,000+ liters of product in 2021 — earned the Bronze Award for client service excellence.
- Built and maintained relationships with regulatory authorities and laboratories to secure import licenses and product testing approvals — enabling client access to the product in the first place.
- Defined requirements with Finance and IT for a new digital document management system aimed at simplifying and standardizing document workflows.

Avanta & K (Laboratory Equipment), Minsk, Belarus (on-site) *Nov 2018 – Nov 2019*

Sales Manager

- Acquired 5+ new clients in a new market segment and won 3 tenders within 6 months.
